## Estimated Giving Form

***Fund Drive Targets: To Achieve 100% Participation and To increase donations to the Building Fund by about \$2000/month or 25%***

After examining my heart and my finances, I believe that I will be able to donate the following amount to the All Saints Building Fund over the next 3 years (*please select either **annual** or **monthly** option*):

2010     \$ \_\_\_\_\_/year     or     \$ \_\_\_\_\_/month  
2011     \$ \_\_\_\_\_/year     or     \$ \_\_\_\_\_/month  
2012     \$ \_\_\_\_\_/year     or     \$ \_\_\_\_\_/month

I plan to donate the following amount to the General Fund in 2010 \$ \_\_\_\_\_\*

This is a non-binding estimate and may be adjusted up or down based on my financial circumstances

Name(s) \_\_\_\_\_ Date \_\_\_\_\_

\*If at all possible, please try to maintain at least the 2009 level of giving to the general fund before contributing anything to the building fund.

The completed form can be given to Ron Evancho (All Saints Financial Secretary), or may be left in the weekly offering in an envelope labeled "Estimated Giving Form".

***Sample Paths  
to achieve the targeted increase in yearly giving to the building fund:***

- 100% of Parishioners contribute and all increase their giving to the Building Fund by \$20/month

**OR**

- 1-3 Parishioners increase their giving by \$4,000-5,000/year, and
- 5-10 Parishioners increase their giving by \$100/month, and
- 20 Parishioners increase their giving by \$40/month (\$10/week), and
- 60 Parishioners increase their giving by \$10-15/month (\$2-4/week)

### **And of Course....**

Large lump sum donations by those who have been financially blessed would be very much appreciated. For example a \$50,000 lump sum payment saves \$7,500/year in interest over 10 years.
